

Providence Education Group Company Profile

President Message

The International Language Academy at Chiangmai (ILAC) and International Language Academy at Bangkok (ILAB) which are under the umbrella of Providence Education Group have been operated the language studies and overseas studies / career advisory services since 1993 and 2002 respectively. The Providence Education Language Immersion Camp (PELIC) is the newest sister company under the same umbrella to offer the latest language teaching method, 10th method where the new language will be part of student's life and all skills has to be use regularly in everyday life including culture of language and life style. This exciting method is working well with Thai people in language learning and enable us to produce people from various professional especially nurse career to qualify to work in abroad successfully since we are aware for some time that Thailand requires a skilled workforce and we are working towards providing the training necessary to achieve this.

Providence Education Group has a long history over almost two decades, not just their excellence in education performance and obtained the Royal King Award in Education and Educational Standard Quality Assurance Award in year 2000, but they also have contributed many language training to both public and private sectors. The management team have been performed their duty and contribution to communities, corporations, associations including the management role in the Private School Association of Chiangmai, Professional Women's Association of Thailand, Chiangmai Chapter, Juvenile Court, etc.

We will continue our role in the society and remain serving our country from the best of our ability always.

Thatchakorn Nimsakulthamrong aka Roschong Nimsakul President

School History

The International Language Academy at Chiangmai (ILAC) is classified under the office of the Private Education Commission as a private, short-course, Vocational school.

The school has been located, since 1993, at 152/1-4 Srichandorn Road, Tambon Changklan, Amphur Muang, Chiangmai. We are the proud recipients of the Royal Award in Education for the year 2000, and also the Ministry of Education's "Educational Standards Quality Assurance Award".

In year 2002, the sister school has been established in Bangkok Metropolitan called The International Language Academy at Bangkok (ILAB) to provide the same quality and convenience to

The school has developed a curriculum, in language and computer usage, for children from starter level upwards.

Nowadays, the school is very well known and has a good reputation. We have had over 3,000 students through our doors since we opened, in all level of education, professions, they received good preparation in English before they go abroad to continue their studies with our educational placement services where we give our professional counseling and pre-departure service and our continued support while they are studying overseas start from primary, secondary, college, university, up to Ph.D. candidates, various professions, etc. We represent a number of universities from Australia, New Zealand, United Kingdom, Europe, North America and Asia.

With the world shortage of Healthcare profession, especially nurses, since 2001, we have developed the new teaching method which is 10th Method of Language teaching called, 'Immersion total technique' and using these technique ever since to prepare nurse and others profession in 24 hours 'Immersion Camp' in order to enable our students to achieve in language learning successfully. Our proudly success story of more than 80 nurses have been working as registered nurse, studying for nurse license in Australia, New Zealand and USA at present and number have been increase more and more as the Government Savings Bank is supported the loan for them. In 2008, the newest sister, Providence Education Language Immersion Camp (PELIC), Providence Education use it objectives to expanding our Immersion language program and launch the Healthcare programs to other professions such an Aged Care, Spa Therapist, Workforce from G to G programs and higher education students, etc.

In conclusion, Providence Education feature is that the policy under which it is administered lays stress on the full development of each human being in terms of intelligent learning of Languages, intelligent use of technology, intelligent knowledge of wellness usage to develop the community and country, and the developing of good moral ethics - all of which benefits the student now studying in the modern world of globalization.
